

Reliable Tools for Bio/Pharma Labs

BRANDplates® microplates

for cell culture, immunoassay & general use

- 8 different surface treatments
- Transparent, white, black, clear bottom and UV-transparent
- C, F, V and U-shaped wells
- Deep Well Plates
- Standard and low volume
- Barcoding on request
- Samples available

BRAND offers a comprehensive line of microplates for general, cell culture and immunology applications. The line includes plates with distinctive physical treatments that eliminate refrigeration and shelf-life concerns. All are SBS-formatted. Visit www.brandtech.com for additional information

Dispensette® III dispensers

The Standard in Bottletop Dispensers

- Rugged: no seals to wear out!
- Compatible with most reagents
- SafetyPrime™ valve reduces splashing and helps conserve reagents.
- Autoclavable to 250°F (121°C).
- Adapters for common bottle threads included
- Dispensette® Organic models available

The BVC family of fluid aspiration systems

The BVC family of fluid aspiration systems deliver compact and quiet solutions for cell culture work. They provide the flexibility to accommodate your decontamination protocol whether you autoclave or disinfect in the bottle.

- Reliable: VACUUBRAND® pump* for long service life
- Power & Control: Suitable for two users, with adjustable* vacuum level
- Robust: "G" models designed for in-bottle bleach decontamination
- Safe: aerosol protection; models with contact-free level sensor available

* Control and professional models
