

Transferpette® S

Single- & multichannel pipettes from BRAND

Transferpette® S pipettes set the benchmark for premium performance, light weight, comfort and easy service.

- **Thumb-tip volume selection**
Set and secure the volume without even shifting your hand position!
- **Short pipetting stroke**
Shortest range of pipetting motion among premium pipettes reduces risk of repetitive strain injury
- **4-digit display**
Precise settings that are always visible while pipetting
- **Fully autoclavable** at 121°C Repeatedly autoclavable without disassembly or recalibration
- **Light weight and rugged**
Made with precision advanced composites for chemical resistance, dimensional stability and light weight
- **Full pipetting range**
Adjustable and fixed-volume single channels pipette volumes from 0.1µL to 10mL; multichannels from 0.5µL to 300µL
- **Economical** Fast, in-house cleaning, repair and calibration—without tools for long, economical service

Lightweight...Precise...
Rugged...Reliable...

The Transferpette® S family of pipettes provides unparalleled comfort and ease-of-use in a central-button pipette.

- Innovative materials reduce weight, improve corrosion resistance and protect accuracy, even after repeated autoclaving.
- Short pipetting stroke reduces the risk of RSI (repetitive strain injury), and enhances comfort for operators with smaller hands. Curved finger rest supports pipette for a relaxed grip.
- True one-handed operation. Volume can be set and secured with the tip of the thumb - even while wearing gloves.
- Large separate tip ejector for reduced tip ejection forces.
- Advanced composite pistons in multichannel models are light, dimensionally stable and corrosion resistant.
- Volume range 0.1 µL to 10mL for single channel models; 0.5 µL to 300 µL for multichannels.
- CE-IVD compliant.

Color coded
Easy selection of the right tip.

Maximum compatibility
Tip cone design offers excellent fit with BRAND tips and broadest compatibility with tips from other manufacturers.

Comfortable
Broad, curved tip-ejector button

Secure
A volume brake helps protect accidental volume changes.

Clearly accurate
4-digit display for precise volume always remains visible during

Simple, economical, in-lab service

Transferpette® S eight- and twelve-channel pipettes feature patented individually removable tip cones for easy cleaning and seal replacement. This is especially handy if faults are discovered during calibration, as only the individual channel needs service.

Transferpette® S single-channel pipettes can be disassembled for cleaning and reassembled in seconds without tools. Integrated spring/seal wear part simplifies in-lab service.

Short stroke length reduces strain
Up to 40% shorter range-of-motion than competitive pipettes.

Fast
One-handed volume setting for both right- and left-handed users – even with gloves!

Reduced static strain
Pipette suspends from relaxed hand.

Calibration adjustment without tools
Easy Calibration™ makes it easy. Adjustment from factory settings is clearly visible from the outside (according to ISO 8655).

Fully autoclavable
Both single and multichannel models are autoclavable at 121°C (20 min) without disassembly – for maximum convenience and protection from contamination!

Smooth operation
Specially selected sealing material provides uniformly smooth pipetting stroke.

Low strain
Resilient V-rings and the stepped design of the tip ejector reduce tip mounting and ejection forces. V-rings support broad tip compatibility.

Convenient
Manifold rotates 360° in both directions allowing you to pipette from any angle.

Easy thumb-tip volume setting

Covered nameplate identifies pipettes without messy tape!

Red recalibration flag indicates adjustment from factory specifications

Free shelf mount with Transferpette® S single or multichannel pipettes

Carousel stand for handy storage of up to six Transferpette® S single or multichannel pipettes

Transferpette® S -8/-12 pipettes supplied with performance certificate, operating manual, shelf mount, two tip boxes, reagent reservoir, pack of replacement V-rings. One-year warranty.

Accessories

	Cat. No.	2015 List Price
Carousel Stand - for up to six Transferpette® S single or multichannel pipettes, pack of 1	704805	\$134.00
Individual Multichannel Stand - for all Transferpette® S, Transferpette® electronic and Transferpette® multichannel pipettes, pack of 1	703440	38.00
Shelf Mount - for all Transferpette® S single or multichannel pipettes, pack of 1	704810	28.00
Autoclavable Reagent Reservoirs – PP, with translucent lids, pack of 10	703459	33.00
Autoclavable Reagent Reservoirs – PP, sterile, individually wrapped, 100 pieces total	703411	274.00
Autoclavable Reagent Reservoirs – PP, sterile, 40 packs of five, 200 pieces total	703409	251.00

A* = Accuracy, CV* = Coefficient of Variation

* The value of accuracy and coefficient of variation are final test values referring to the delivered nominal volume, instrument and distilled water at equilibrium with ambient temperature (20°C/68°F) and with smooth operation.
