

# Tyro12™ vacuum pump

from VACUUBRAND

## Professional vacuum for labs on a budget

*vacuubrand*

The VACUUBRAND® Tyro12™ oil-free vacuum pump serves laboratory tasks from filtration to evaporation, with a corrosion-resistant design and vacuum capacity to 12Torr!

VACUUBRAND® Tyro12™  
vacuum pump  
12Torr, 35lpm

The Tyro12™ is an economical vacuum pump for a wide variety of laboratory tasks when budgets are a concern. Offering 15mbar (12Torr) ultimate vacuum and 35lpm (1.2cfm) free air capacity, the Tyro12™ is suitable for rotary evaporation, gel drying, and many

- water
- tert-butanol and lighter alcohols
- ethyl acetate
- dichloromethane

Many other popular solvents can be evaporated in heated applications. The Tyro12™ is also an excellent choice for filtration and other general laboratory needs, with the power to support a manifold of filtration set-ups. Like all VACUUBRAND® pumps, the Tyro12™ pump operates almost silently—at about the sound level of a quiet conversation. It is also very reliable, with long service intervals; in

other evaporative tasks. With integrated gas ballast, fluoropolymer flowpath and heavy-duty valves, the Tyro12™ is especially tolerant of condensed vapors, and can evaporate the following solvents at room temperature:

- n-hexane
- chloroform
- toluene

most applications you can go years without even a diaphragm change. And of course, the oil-free design means there's no oil to change—ever.

Try the economical, corrosion-resistant Tyro12™ vacuum pump! Call for a demonstration. For more information, visit [www.brandtech.com](http://www.brandtech.com).
